

Service Point selected to distribute Autodesk products in the US

- **Autodesk is the world's leading developer of computer aided software such as AutoCAD and Revit**

6 April 2009.- The US subsidiary of Service Point Solutions, S.A (ticker: SPS.MC) has been selected by Autodesk as its value-added reseller (VAR) in the US for its 2D and 3D computer aided design software, AutoCAD and Revit. These are the leading applications in the architectural, engineering and construction (AEC) sectors and in building information modelling (BIM).

Leveraging its highly qualified technical team, which is very familiar with this industry, Service Point will market cutting edge 2D and 3D design solutions to sector professionals, also providing the highest levels of training and technical support. In conjunction with the launch of these new programs, Service Point is holding introductory training sessions for users and potential clients, showcasing the merits of Autodesk's AutoCAD and Revit software.

This agreement fleshes out Service Point's product and service offering, adding value particularly to customers opting for facilities management solutions. This design tool rounds out Service Point's value proposition in the document management cycle, ranging from creation and design through printing, distribution and archiving.

According to Rafael López-Aparicio, CEO at Service Point; *"We are extremely satisfied with the Autodesk reseller agreement and what it will mean for our customers. Autodesk, like Service Point, is a leading provider of key products and services in this industry. Service Point hopes to be able to extend this agreement to other operating markets in the future"*.

Over 9 million professionals use Autodesk's products worldwide, making it the global leader in computer assisted design software.

Service Point Solutions, (www.servicepoint.net) provides digital reprographics and document management services for the infrastructure, industrial, public and services sectors. It employs over 2,700 people across 8 countries (United Kingdom, USA, Spain, France, Germany, The Netherlands, Belgium and Norway) through a network of 140 services centres and 840 facilities management programs. SPS is headquartered in Spain and listed on the Madrid and Barcelona stock exchanges (Ticker: SPS.MC).
