

The Spanish Senate entrusts Service Point its document management

- **The upper Spanish Chamber has awarded Service Point the contract for the digitalization of answering written questions**

Barcelona, 5 August 2008- Service Point Solutions, S.A (ticker: SPS.MC), through its Spanish subsidiary Service Point Facilities Management Ibérica, S.A., has been awarded the Senate document contract, consisting on the digitization of queries which required written answer.

The project includes the digitization of records written questions relating to the V, VI and VIII term, undertaken by the Government Senators and their incorporation into the database of the Senate. This allows the consultation of such information with great agility and facilitates the search for precedents in different subjects, a process that until now was done manually.

The files contain all information relating the process that follows a written question that makes a Senator: the question is sent to the Bureau of the Senate, if it is not considered, it is communicated to the Senator and the file shall be archive; if it is considered appropriated it is published in the Official Gazette of the Senate and it is sent to the Government, which has 20 days to answer. If there is no response, the Senator may request an oral answer in the next Commission and, if it is answered on time, it is sent to the Senator and both the question and the answer are published in the Official Gazette of the Senate.

The total number of files to digitize and incorporate into the database is 116.500, for which Service Point has a team of professionals working in the contract that processes all documents and manage information for further treatment on the data basis.

According to Rafael López-Aparicio, CEO of SPS: *“The entrustment by the Senate that has entrusted of such important documents is a great satisfaction for us and reflects our ability to deliver solutions in mission-critical documents. This new reference joins the recent renewal of our Facilities Management contract with the German Parliament and Upper Chamber”*.

[Service Point Solutions](http://www.servicepoint.net), (www.servicepoint.net) provides digital reprographics and document management services for the infrastructure, industrial, public and services sectors.
